

Kochi Salem Pipeline Private Limited (KSPPL)

Health Safety and Environment Policy

KSPPL is committed to providing and maintaining a safe and healthy workplace for all personnel associated with the business, the workmen, customers, visitors and members of the common public at large.

Hazards and risks to health and safety shall be eliminated if not minimised, adopting prescribed safety practices.

Ensure that the business is carried out in an environment friendly manner, conserving energy and preserving natural resources.

Ensure that each staff is trained and made competent to handle any risk likely to arise in their functional areas.

Establish and implement regular audits, review and correction mechanisms to achieve continual improvement of safety practices.
